

AKADEMİK TEŞVİK ÖDENEĞİ KAPSAMINDA WEB OF SCIENCE ATIF ANALİZİ KILAVUZU

Bu kılavuz, Web of Science (SSCI, SCI-EXPANDED, AHCI) indekslerinde yer alan dergilerdeki, öğretim üyesi/elemanının yazar olarak yer almadığı makalelerde, öğretim üyesi/elemanının eserlerine yapılan her bir atıf'ın nasıl bulunacağı konusunda yönlendirmeler içermektedir.

Tarama yapılırken;

Üniversite IP adreslerine sahip bilgisayarlardan bu işlemler yapılabilir. İlk olarak Web of Science anasayfasına giriş yapılmalıdır.

Tarama Basic Search'te, Yazar adına göre yapılır. Sol taraftaki açılır menüden "Author" seçilir. Daha sonra Sağ arama kutucuğuna yazar Soyad ve İsmi'nin baş harfi yazılır arama butonuna tıklanır. (Örn: KECEBAS A.)

Tarama sonuçları ekranda listelenecektir.

Tarama sonuçlarının, yazarın kendisine ait olup olmadığı kontrol edilmelidir. Yazarın kendisine ait olmayan yayının listeden çıkartılması için;

- Her sayfada 10 yayın listelenmektedir. "Select Page" kutucuğu işaretlenir ve "Add to Marked List" butonu tıklanır.

Not: Eğer yayın sayısı 10'dan fazla ise sayfanın sağ üst kısmında yer alan sayfalar arası geçiş butonundan ilerleyerek her sayfa için aynı işlem yapılır.

Citation Report'u alınacak olan makalenin yan sütünunda yer alan "Citations" tıklarır. Daha sonra buradan yıl filtrelemesi yapılır.

The screenshot shows a Web of Science citation report for three articles. The first article, 'Investigation on flow and heat transfer of compact brazed plate heat exchanger with lung pattern' by Gureli, B.; Akkaya, N.B.; and Kecebas, A., published in July 2020 in 'APPLIED THERMAL ENGINEERING', has 16 citations and 40 references. The second article, 'Machine learning-based improvement of empiric models for an accurate estimating process of global solar radiation' by Demircan, C.; Bayrakci, H.C.; and Kecebas, A., published in February 2020 in 'SUSTAINABLE ENERGY TECHNOLOGIES AND ASSESSMENTS', has 12 citations and 46 references. The third article, 'Artificial Bee Colony-Based GMPPPT for Non-homogeneous Operating Conditions in a Bifacial CPVT System' by Demircan, C.; Kecebas, A.; and Bayrakci, H.C., published in 2020 in 'MODERN MAXIMUM POWER POINT TRACKING TECHNIQUES FOR PHOTOVOLTAIC ENERGY SYSTEMS', has 3 citations and 45 references. The interface includes a 'Full Text at Publisher' link for each article and a 'Related records' link. The bottom of the screenshot shows the Windows taskbar with the date 28.12.2022 and time 15:27.

Yıl filtreleme;

Refine Results altında "Publication Year" filtresi seçilir, güncel yıl işaretlenip "Refine" butununa tıklarır. Publication Year altında güncel yıl görünmüyorsa "more options/values" alanı tıklarır. Gelen ekranda ilgili yıl seçilerek "Refine" butonu tıklarır.

The screenshot shows the 'Publication Years' filter menu. The years 2022, 2021, 2020, 2019, and 2018 are listed with checkboxes. The 2022 checkbox is checked. The number of results for each year is shown to the right: 13 for 2022, 5 for 2021, 15 for 2020, 9 for 2019, and 9 for 2018. At the bottom, there are two buttons: 'Exclude' and 'Refine'.

Year	Count
<input checked="" type="checkbox"/> 2022	13
<input type="checkbox"/> 2021	5
<input type="checkbox"/> 2020	15
<input type="checkbox"/> 2019	9
<input type="checkbox"/> 2018	9

Yıl filtremesi sonucu gelen ekran.

The screenshot shows a Web of Science search results page. The sidebar on the left contains filters for Authors, Publication Years, Document Types, and Web of Science Categories. The main content area displays three articles:

- Article 3: "Modeling and Assessment of the Thermo-Hydraulic Performance for a Fish Gill Patterned Plate Heat Exchanger in Biomimetic Approach" by Gurel, B.; Kecebas, A. (-); Kurtulus, K. (Aug 2022 [Early Access] | HEAT TRANSFER ENGINEERING) with 41 References.
- Article 4: "Improvement of thermo-hydraulic performance with plate surface geometry for a compact plate heat exchanger manufactured by additive manufacturing" by Goltas, M.; Gurel, B. (-); Gulser, O.Y. (Jun 1 2022 | INTERNATIONAL JOURNAL OF HEAT AND MASS TRANSFER 188) with 48 References.
- Article 5: "Effect of fluid distribution along the channel length on the cooling performance of microchannel heat sink" by Zhang, Y.J.; Wang, S.F. and Liu, Z.M. (1 Citation).

Doküman tipinin filtrelenmesi,

Akademik teşvik yönetmeliği MADDE 7'nin 4. Fıkrası nedeni ile, Dergilerde yayımlanan makalelerin değerlendirilmesinde ilgili derginin basılmış olması veya elektronik ortamda yayımlanması (Cilt, sayfa ve yıl bilgileri ile künyesi açık bir şekilde sunulmalıdır.) esastır. Aynı şart atıflar içinde geçerli olması nedeni ile 'Early Access' olan yayınlar seçilir ve Exclude yapılır.

The screenshot shows the 'Quick Filters' section in Web of Science. It contains a list of document types with checkboxes and counts:

- Review Article 1
- Early Access 1
- Open Access 7
- Enriched Cited References 6

At the bottom of the section, there are two buttons: 'Exclude' and 'Refine'.

The screenshot shows the Web of Science search results page. The search query is "Citations of The development of empirical models for estimating global solar radiation on horizontal surface: A case study". The results are sorted by date, newest first. The first result is "Long-Term Variations in Global Solar Radiation and Its Interaction with Atmospheric Substances at Qomolangma" by Bai, J.H.; Zong, X.M.; Li, S.; Song, T., published in August 2022 in the International Journal of Environmental Research and Public Health, with 70 references. The second result is "Combined empirical and machine learning modeling method for estimation of daily global solar radiation for general meteorological observation stations" by Zeng, H.C.; Jiang, X.L.; Sun, G.Q., published in August 2022 in Renewable Energy, with 77 references. The third result is "Hyper-parametric improved machine learning models for solar radiation forecasting" by Kumar, M.; Namrata, K. and Kumari, N., published in October 2022 in Concurrency and Computation: Practice & Experience, with 52 references. The interface also includes a sidebar with filters for document types, citation topics, and authors.

Yazar Filtrelemesi;

The screenshot shows the 'Authors' filter menu. The menu is titled 'Authors' and has a dropdown arrow. It includes a toggle switch for 'Show Researcher Profiles' which is currently turned on. Below the toggle, a list of authors is shown with their respective citation counts: Fan, Junliang (5), Wu, Lifeng (5), Fan, Junliang (5), Bai, Jianhui (4), and Xiang, Youzhen (4). At the bottom, there are three buttons: 'See all >', 'Exclude', and 'Refine'.

“Author” filtresi seçilir. Yazar, “See all” işaretlenerek tüm atıf yapan yazarlar listelenir, buradan kendi adını seçerek “Exclude” butonuna tıkladığında, self-citationlardan ayıklanmış listeye ulaşılır. Eğer yazar kendine atıf vermediyse yazarın kendi adı listede çıkmayacaktır.

1 Long-Term Variations in Global Solar Radiation and Its Interaction with Atmospheric Substances at Qomolangma

Bai, JH; Zong, XM; (-); Song, T

Aug 2022 | INTERNATIONAL JOURNAL OF ENVIRONMENTAL RESEARCH AND PUBLIC HEALTH 19 (15) 70 References

Enriched Cited References

An empirical model to estimate global solar radiation was developed at Qomolangma Station using observed solar radiation and meteorological parameters. The predicted hourly global solar radiation agrees well with observations at the ground in 2008-2011. This model was used to calculate global solar radiation at the ground and its loss in the atmosphere due to absorbing and scattering substances ... Show more

Atıf raporunun sayfanın yazdır butonu kullanılarak pdf olarak kaydedilmesi sağlanır. Makalenin adı ile dosya pdf olarak kaydedilmiş olunur.

The screenshot displays a Web of Science citation report for the article "Citations of the development of empirical models for estimating global solar radiation on horizontal surface: A case study". The report includes the following statistics:

- Publications:** 11 Total (From 2015 to 2023)
- Citing Articles:** 36 Total (35 Without self-citations)
- Times Cited:** 37 (3.36 average)

A bar chart at the bottom shows the distribution of publications and citations over time, with 11 publications in 2022 and 37 citations in 2023. A sidebar on the right titled "Yazdır" (Print) offers options for PDF export, page range, and paper size.

Daha sonra atıf raporu hazırlanan makale ile makalenin ilk sayfası pdf olarak birleştirilerek sisteme yüklemesi yapılır.

The screenshot shows a Mac OS file manager window titled "Farklı kaydet" (Save As) overlaid on the Web of Science citation report. The file name is "horizontal surface- A case study.pdf" and the format is set to PDF. The file is being saved to a folder named "Masalüstü". The file manager window also shows a sidebar with folders and files, and a search bar.
